

## **DEADFAST GARAGE & LOFT SMOKE FUMIGATOR**

Deadfast Garage & Loft Smoke Fumigator kills flying and crawling insects such as wasps, moths, fleas, houseflies, clusterflies and mosquitos, including hidden ones, in enclosed spaces. It leaves no smell or visible deposits after use.

### **Treats**

Treats wasps in a 32m<sup>3</sup> area, flying insects in a 120m<sup>3</sup> area, ants and crawling insects in a 7.5m<sup>3</sup> area.

### **Instructions for Use**

- For best results fumigate in the late afternoon and leave the building for a minimum of 2 hours.
- Ensure that the area to be treated is as smoke tight as possible by closing all windows and door entrances, etc. Cover water storage tanks before application.
- Remove the plastic lid and place the fumigator on the upturned tin on a stable heat-resistant surface (e.g. a plate on a ½ m square of aluminium foil).
- Light the fuse carefully as it may emit some sparks upon ignition and exit the space.
- Exclude all persons and animals for 12 hours and then ventilate thoroughly.
- For severe infestations fumigate 3 times at 5 to 7 day intervals.

### **STATUTORY CONDITIONS RELATING TO USE**

FOR USE ONLY AS AN INSECTICIDE.

FO AMATEUR AND PROFESSIONAL USE.

Apply at a rate of one fumigator per 120m<sup>3</sup> for flying insects, 30m<sup>3</sup> for fleas and arpet moths or 7.4m<sup>3</sup> for bedbugs, ants and cockroaches.

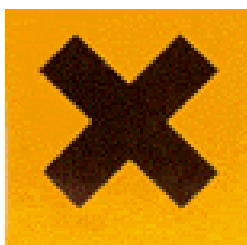

This product has been approved under The Control of Pesticides Regulations 1986 (as amended) for use as directed.

HSE 8120

### **To avoid risks to man and the environment comply with the instructions for use.**

- Do not breathe in smoke/fumes.
- Do not contaminate foodstuffs, eating utensils or food contact surfaces.
- The material and its container must be disposed of in a safe way.
